SUPPORT

Quality Performance Services...

**Comprehensive press and prepress services
with over 45 years Heidelberg experience**

Print Calibration Services

Technical Print Solutions

what our customers say...

"As a Heidelberg house, we pride ourselves on quality print production. The excellent services provided by Tim and Steve have enabled us to further optimise our processes and deliver even higher quality print more cost effectively"

Andrew Snape, Production Manager, Wood Mitchell Printers, Stoke-on-Trent

"Steve has assisted us on numerous occasions over the years, both in his former life as Heidelberg Technical Specialist, and more recently in his self-employed capacity. Whether his services relate to print quality, prepress, workflow or proofing, he invariably over-delivers"

Peter Cusselle, Prepress Manager, Fox Print Services, Tunbridge Wells, Kent

"Further to increasing production capacity at Latimer Trend, with installation of a Heidelberg XL105-8-P InpressControl press, it is critical we deliver the highest print colour quality at maximum performance. The comprehensive range of integration services delivered by Steve and Tim ensure we do just that. Highly recommended"

Andy Ogden, Production Director, Latimer Trend, Plymouth

"If you are after an honest, competitive and competent service, Tim is the right person. We connected our Heidelberg presses to Image and Axis Control, and set up a pre-press system with Tim and he did a fantastic job, he kept us updated on progress and helped us make decisions based on value."

Krishna Parmar BSc. (Hons), QA Manager, pip print and packaging, Leicester

"As busy London based Commercial Printers, with two Heidelberg presses and ImageControl, we require practical no nonsense print quality solutions. From press health checks and roller services, to closed-loop colour and prepress setup, the end to end services provided by Tim and Steve have streamlined our production processes, and improved both colour quality and efficiencies"

Lee Hammond, Managing Director, Full Spectrum, Basildon

what we do...

Services and Benefits:

- optimise press condition
- roller replacement
- consumables know-how (böttcher approved)
- prepress to press integration
- maximise make-ready efficiencies
- optimise print colour quality
- press measurement systems (Easy, AXIS, Image, InpressControl)
- printing to standards
- proof calibration
- ink reduction and enhanced image separation
- expanded gamut printing
- training programs and knowledge transfer
- holiday and sickness cover
- press pre-setting solutions
- press reporting solutions
- service and preventative maintenance plans

how we do it...

We listen to our clients' needs and issues. We understand and identify their problems. We are impartial.

We recommend and implement practical solutions, born from experience.

The complement of press and prepress expertise enables us to efficiently problem solve and streamline the print production process.

Tim Gibson

Over 32 years of experience in the print industry, with 19 at Heidelberg. Tim began his Heidelberg employment at Heidelberg South Africa, where he earned his stripes demonstrating and training users on the Speedmaster range of SM and CD presses.

He followed this with 14 years at Heidelberg UK, where he worked intensively on the world beating XL 105/106 and 75 press range.

A frequent visitor to Heidelberg Germany, Tim also has considerable experience of VLF, and was involved in early support and development work.

Steve Fowler

With over 30 years experience in the industry, and as former colour specialist for world leading press manufacturer Heidelberg, Steve has a proven pedigree in print production workflows and colour management.

Leading Heidelberg UK's ISO12647-2 Certification program, proof calibration services and Prinect Colour Solutions, Steve possesses a wealth of practical experience and expertise.

Steve has delivered service and support worldwide, and led training programs in Heidelberg's Print Media Academies across the world.

As a team, we deliver complete print production optimisation.

The complement of our press and prepress expertise combine to deliver optimum print colour quality at maximum productivity.

Whether you need to get more out of your prepress, or more out of your press, we can help.
